WORK EXPERIENCE

Senior Front End Developer
MAY BANK

06/2018 – Present   *Kulal Lumpur, MALAYSIA*

My current project is with Maybank where my role is to develop and implement react components for single based application. One of my key responsibility is to work on schema for fields through JSON format in connection with server side request and along with that i am also working on Redux, Routers, React libraries, refactoring existing codes for Upgraded UI/UX project at may bank using agile methodology.

Technologies
- React Js, Redux, HTML5, Css3, Sass, Bootstrap, Grunt/Node, Type Script

WORK EXPERIENCE

Senior Software Engineer
Wipro Technology

02/2016 – 10/2017   *Bangalore, India*

My designation was Senior Software Engineer where i worked for one of the client named "VISA". I was handling the development for multiple projects, coordinating with different teams such as Operations, Release Management, Quality assurance. Some of my achievements were enhancements to the application such as Card activation, Visa Checkout, Single Sign On etc. During the project i had worked on sprint planning, story creation and explaining to the team, Taking part in setting up test frameworks, writing test cases for the previously developed codes, involved in code documentations and code review.

Technologies

- Java, React Js, Sass, Sql, Backbone Js, Grunt/Node

Senior Software Engineer
Cloudjet Labs

09/2014 – 01/2016   *Bangalore, India*

Cloudjet lab is a product based company worked for Mine application. As a Sr. Engineer, worked on sprint planning, story creation and explaining the stories to rest of the team members. Took part in setting up test framework and writing test cases for the previously developed code base. Also, involved in code documentation, code reviews. I have developed cross-platform mobile applications using Ionic.

Technologies

- Angular js, Web Gl, Ionic, Bootstrap, Html5, Css3, Less

Front-End Developer
Nexia Digital

04/2013 – 08/2014   *Bangalore, India*

Nexia Lab is a website development company and i was part of multiple projects with different clients. The role was challenging for me as i had to gather requirement from clients, communicating the same to the team before and after development phase and work under tremendous pressure to meet the client's deadlines without compromising on the quality.

Technologies

- HTML 5, CSS3, JavaScript, Jquery, wordPress

Web Developer
WebConnect Pvt. Ltd

06/2011 – 10/2012   *Gujurat, India*

I started my career with Web connect as a Junior Web Developer where i learned various technologies and involved in website development and testing activities.

Technologies

- PHP, My SQL, HTML5, CSS3, jQuery,Javascript
